## TODAY'S NEWS

Pada Selasa (16/01) Rupiah dibuka di *level* 15,545/15,580, dengan *first traded* di 15,580, dengan kurs acuan JISDOR di *level* 15,592 (*prior*: 15,555). Rupiah diperdagangkan pada *range* 15,580-15,605. Perdagangan Rupiah hari ini akan dipengaruhi oleh pernyataan beberapa petinggi The Fed, diantaranya Gubernur Federal Reserve, Christopher Waller yang menyatakan bahwa penurunan suku bunga masih akan terjadi, namun Bank Sentral AS tidak akan terburu-buru dalam memangkas suku bunga. Selain itu, Presiden Bank Sentral Perancis, François Villeroy de Galhau, yang juga merupakan anggota dewan Bank Sentral Eropa, mengatakan bahwa Bank Sentral harus bersabar mengenai penurunan suku bunga. Dari Eropa, Anggota ECB, Robert Holzmann menyatakan bahwa inflasi yang berkepanjangan dapat membatasi ECB untuk memangkas suku bunga tahun ini.

## Global Market

Pelaku pasar masih mencari tanda-tanda terkait The Fed yang mungkin masih berupaya memotong suku bunga dalam beberapa bulan mendatang. Rilis data survei Manufaktur Empire State untuk bulan Januari turun menjadi -43.7 merupakan penurunan besar 3 kali lebih rendah dari bulan sebelumnya -14.5, dan penurunan terbesar sejak -78.2 pada bulan April 2020 saat pandemi Covid. Index tersebut masih berada di wilayah negatif selama delapan menandakan melemahnya sektor manufaktur di Negara Bagian New York. Meskipun AS berada dalam jarak yang sangat dekat dengan sasaran inflasi 2% yang ditetapkan oleh The Fed, namun The Fed tidak boleh terburu-buru memotong suku bunga acuannya sampai jelas bahwa inflasi yang lebih rendah akan dipertahankan dan terlepas dari kapan penurunan suku bunga dimulai. Adapun, Gubernur The Fed, Christopher Waller memberikan isyarat melalui pidatonya menyiratkan bahwa The Fed mungkin tidak akan menurunkan tingkat suku bunganya segera yang diperkirakan sebelumnya. Setelah pidato tersebut, tingkat imbal hasil US Treasury tenor 10 tahun naik sebanyak 11 bps ke *level* 4.06%. Selain itu, beberapa pejabat di Eropa pun turut mengisyaratkan bahwa inflasi yang berkepanjangan dapat membatasi Bank Sentral Eropa untuk memangkas suku bunga di tahun ini.

## Domestic Market

Saat ini pelaku pasar sedang menanti hasil Rapat Dewan Gubernur (RDG) Bank Indonesia yang disampaikan pada hari ini. Pelaku pasar memproyeksikan bahwa BI akan kembali menahan tingkat suku bunga acuan di *level* 6.00% (*prior*: 6.00%) untuk menjaga stabilitasi nilai tukar Rupiah di tengah melandainya inflasi Indonesia. Adapun dalam beberapa kesempatan, Gubernur Bank Indonesia, Perry Warjiyo menyampaikan bahwa kebijakan moneter kini difokuskan untuk menjaga stabilitas Rupiah mengingat inflasi Indonesia yang sudah terkendali.
